

Damien House

Objective To obtain a part-time IT position where I may utilize my computer skills, grow a more diverse field of expertise, and fund my college expenses.

- Computer Skills**
- Languages – C/C++, Delphi, Pascal, Visual Basic, SQL, Transact-SQL, JavaScript, DHTML, XML.
 - Concepts – OOP, COM, OLE / ActiveX, Database Design, Internet / Intranet Infrastructure.
 - OS – Windows v3.1, v3.11, 95, Windows NT Server / Workstation v4.0, MS-DOS.
 - Networks – Windows NT, Novell NetWare, TCP/IP, Network Design / Implementation.
 - Hardware – Extensive knowledge on all components of Servers / PC's, able to service.
 - Software – All MS Office products, Crystal Reports, Lotus 123, AutoCAD.
 - Databases – Oracle, SQL Server, MS Access, Paradox.

Experience Sept 1998– Present Morgan State University Baltimore, MD

INSS System Administrator

- Designed and implemented INSS Lab with WinNT Server/Workstation consisting of 2 servers and 30 workstations.
- Installed and set up the INSS DBMS server with SQL Server and Oracle.
- Developed INSS Sys Admin program to import accounts from the school's database of INSS Majors to the INSS Lab's WinNT SAM database and SQL Server database.
- Set up IIS on the DBMS server to allow students and faculty to have access to their individually shared folders on the server from the Internet.
- Assisted students with database and programming questions.

Sept 1997– Sept 1998 Venture Media/Linda Seidel Transforming Cosmetics Timonium, MD

DBA / Software Developer / Assistant MIS

- Serviced hardware / software / networking problems.
- Expanded LAN to include Operations and Accounting offices.
- Developed Dial-Up Networking system to connect the Maryland and Virginia offices.
- Developed LSTC Medical Division order processing database and front end application using SQL Server, Delphi, and Visual Basic.
- Ported and enhanced original MS Access LSTC Retail & Salon front end to a more efficient Visual Basic front end using DAO and RDO.

1995–1996 ASoft Baltimore, MD

Software Developer

- Developed educational software using Visual Basic and Delphi.
- Designed graphics used in other programs using AutoCAD, Photoshop, and 3D Studio.

Education 1997–Present Morgan State University Baltimore, MD

- Computer Engineering Major : Sophomore Status

1993–1997 Baltimore Polytechnic Institute Baltimore, MD

- Engineering Major

Damien House

Activities

- Association of Information Technology Professionals – MSU Chapter President '98-'99
- Organized a Corporate Division to provide IT services to the campus.
- Organized an alliance with the Towson State University Computer Science Club to work on various projects.
- Designed a database and front end app for the Honors Dept.
- Polytechnic Concert, Marching, Jazz Band
- Polytechnic Air Force Junior ROTC

Hobbies / Interests

- Video game programming – graphics and techniques.
- Differential Equations – deriving formulas to shorten steps in solving.
- PC Hardware – upgrading.
- Playing the classical music and jazz on the piano or keyboard.
